

How to print email wirelessly from your own device

1. Go to your email.
2. Find the email you want to print
3. Forward the email you want to print to this address: lattc-mfd-wireless-library-printer1@printspots.com for printer 1 and this address: lattc-mfd-wireless-library-printer2@printspots.com for printer 2.
4. Wait until you get a conformation email back stating that your print job has been processed.
5. Pick up your print job using your email at the Print Release Station
